Volume 24, Number 1, February 1989

Liliana M. Mauri, Stella M. Alzamora, J. Chirife and María J. Tomio
Review: Kinetic parameters for thiamine degradation in foods and model solutions of high water activity 1

C. M. Van der Marel, A. W. de Vries, J. G. van Logtestijn and D. A. A. Mossel
Effect of lactic acid treatment during processing on the sensory quality and lactic acid content of fresh broiler chickens 11

J. M. Aguilera and Hilda D. Garcia
Protein extraction from lupin seeds: a mathematical model 17

J. M. Aguilera
Protein extraction from lupin seeds: microstructural aspects and hypothesis of mechanism 29

E. S. Lazos and A. Alexakis
Metal ion content of some Greek wines 39

C. Nguyen-The and J. P. Prunier
Involvement of pseudomonads in deterioration of 'ready-to-use' salads 47

C. P. Robson, R. Collison and H. J. H. MacFie
Factors affecting the shelf-life of precooked chilled roast pork 59

K. Azam, I. M. Mackie and J. Smith
The effect of slaughter method on the quality of rainbow trout (*Salmo gairdneri*) during storage on ice 69

Diane K. Wakefield, E. Dransfield, N. F. Down and A. A. Taylor
Influence of post-mortem treatments on turkey and chicken meat texture 81

R. J. Hastings
Comparison of the properties of gels derived from cod surimi and from unwashed and once-washed cod mince 93

Maria Luz Fernandez and J. W. Berry
Rheological properties of flour and sensory characteristics of bread made from germinated chickpea 103

N. Singh, G. S. Chauhan and G. S. Bains
Effect of soyflour supplementation on the quality of cooked noodles 111

Book reviews 115

Volume 24, Number 2, April 1989

S. Poole
Review: The foam-enhancing properties of basic biopolymers 121

M. A. Esteban, A. Marcos, J. Fernández-Salguero and M. Aclalá
An improved simple gravimetric method for measurement of high water activities 139

R. Gómez, C. Peláez and E. De la Torre
Microbiological study of semi-hard goat's milk cheese (Majorero) 147

D. V. Hoyland and A. J. Taylor
A modified distillation method for the detection of fat oxidation in foods 153

A. Lees, M. Kent and R. H. Christie
The effect of pre-drying temperature on the sorption properties of microcrystalline cellulose at temperatures up to 90°C 163

F. M. Scriven, N. Gains, S. R. Green and D. M. H. Thomson
A contextual evaluation of alcoholic beverages using the repertory grid method 173

Technical notes

P. Rice and M. H. Gamble
Modelling moisture loss during potato slice frying 183

L. Barber, E. A. Ibiama and S. C. Achinewhu
Microorganisms associated with fermented fluted pumpkin seeds (*Telferia occidentalis*) 189

S. Y. Giami
Effects of pretreatments on the sensory properties of plantain and yam on frozen storage 195

J. M. Schafheitle and N. D. Light
Sous-vide preparation and chilled storage of chicken ballotine 199

R. P. Pecora
Determination of protein in edible mushroom (*Boletus* spp.) 207

R. Chakrabarti
The use of selective dense media in separation of meat and preparation of an intermediate moisture product from small shrimps 211

H. S. Ramaswamy and M. A. Tung
Textural changes as related to colour of ripening bananas 217

Book reviews 223

Volume 24, Number 3, June 1989

J. Fernandez-Salguero, M. Alcala, A. Marcos, Mª. A. Esteban, L. Cabezas and R. Gomez
Determination of water activity of canned fish using gravimetric, hygrometric and psychrometric methods 233

R. P. Saxena, Laxmi Chand, G. K. Garg and B. P. N. Singh
Effect of bicarbonate soaking on dehusking efficiency and composition of pigeon pea (*Cajanus cajan* L.) seeds and dhal 237

S. O. Awonorin
A model for heat transfer in cryogenic food freezing 243

Chr. Kratchanov, P. Denev and M. Kratchanova
Reaction of apple pectin with ammonia 261

Patricia H. Moulding, J. Goodfellow, K. M. McLellan and D. S. Robinson
The occurrence of isoperoxidases in conference pears 269

K. Vareltzis, F. Zetou, N. Soultos and I. Tsiaras
Use of hake (*Merluccius merluccius*) surimi in a Frankfurter formulation 277

R. P. Singh, B. Panda and V. K. Yadava
Effect of packaging and storage on the keeping quality of pickled quail eggs 283

K. R. Davey
Theoretical analysis of two hot water cabinet systems for decontamination of sides of beef 291

K. R. Davey and M. G. Smith
A laboratory evaluation of a novel hot water cabinet for the decontamination of sides of beef 305

R. J. Aguerre, C. Suarez and P. E. Viollaz
Relationship between energies of water sorption and diffusion in grains 317

B. R. Thakur and S. S. Arya
Studies on stability of blue grape anthocyanins 321

N. Khetarpaul and B. M. Chauhan
Effect of germination and pure culture fermentation on HCl-extractability of minerals of pearl millet (*Pennisetum typhoideum*) 327

R. Shepherd, S. G. Wharf and C. A. Farleigh
The effect of a surface coating of table salt of varying grain size on perceived saltiness and liking for paté 333

Technical note

S. Aubourg, R. Perez-Martin and J. M. Gallardo
Stability of lipids frozen albacore (*Thunnus alalunga*) during steam cooking 341

Book reviews 347

Volume 24, Number 4, August 1989

A. O. Ogunsua
Total cyanide levels in bread made from wheat/cassava composite flours 361

B. K. Ndabikunze and S. Lahtinen
Substitution of sodium chloride by Morton Lite Salt or Mineral Salt in mayonnaise 367

C. H. Kim, J. A. Maga and J. T. Martin
Properties of extruded blends of wheat dried distiller grain flour with other flours 373

S. Mohamed, Z. Johan and J. Bakar
Chickpea, mungbean, cowpea and peanuts as substitutes for soybean curds 385

S. J. Lue and B. H. Chiang
Deacidification of passion fruit juice by ultrafiltration and ion-exchange processes 395

W. P. Mohr
Influence of cultivar, fruit maturity and fruit anatomy on apple sauce paricle size and texture 403

B. Kowalski
Sub-ambient differential scanning calorimetry of lard and lard contaminated by tallow 415

D. W. Koren and Z. Duvnjak
Continuous production of very enriched fructose syrup by the conversion of glucose to ethanol from glucose–fructose mixtures in an immobilized cell reactor 429

Y. Fujio and S. Furuta
Fractionation of water insoluble solids and extraction of pectins from residues of juice-extracted satsuma mandarin fruit by wet grinding 439

R. Gray and M. Hilary Stevenson
The effect of post-irradiation cooking on the ESR signal in irradiated chicken drumsticks 447

M. Matsuzaki, F. McCafferty and M. Karel
The effect of cholesterol content of phospholipid vesicles on the encapsulation and acid resistance of ß-galactosidase from *E. coli* 451

Technical notes

P. R. Sheard, P. D. Jolley, L. D. Hall and P. B. Newman
The effect of temperature and raw material on the size distribution of meat particles pre-broken by grinding 421

V. M. Bernal and D. W. Stanley
Methylcellulose as a binder for reformed beef 461

Book reviews 465

Volume 24, Number 5, October 1989

N. Kirtchev, I. Panchev and Chr. Kratchanov
Kinetics of acid-catalysed de-esterification of pectin in a heterogeneous medium 479

Ingrid Lamberg and Helgot Olsson
Starch gelatinization temperatures within potato during blanching 487

C. James, D. L. D. Courtney and K. Lorenz
Rice bran–soy blends as protein supplements in cookies 495

H. J. Swatland
Effect of temperature (0–80°C) on the interior reflectance of ovine sternomandibularis muscle 503

N. G. Malleshi, M. A. Daodu and A. Chandrasekhar
Development of weaning food formulations based on malting and roller drying of sorghum and cowpea 511

J. E. Plowman, J. L. Love and B. R. Herbert
Enzyme induced loss of sucrose in berry fruit juices 521

A. C. Fogerty, F. B. Whitfield, D. Svoronos and G. L. Ford
Effect of heat on the fatty acids and aldehydes of veal meat phospholipids 529

O. Parades-López, C. Reyes-Moreno, R. Montes-Rivera and A. Carabez-Trejo
Hard-to-cook phenomenon in common beans—influence of growing location and hardening procedures 535

K. Lorenz and F. Nyanzi
Enzyme activities in quinoa (*Chenopodium quinoa*) 543

H. Wainwright and P. A. Hughes
Objective measurement of banana pulp colour 553

Technical notes

K. K. Seth and Nirankar Nath
Storage stability of lipoxygenase-free full-fat soyflour packed in polyethylenes 559

G. R. Akande
Improved utilization of stunted tilapia spp. 567

Letter to the Editor 573

Book reviews 577

Volume 24, Number 6, December 1989

Editorial i

M. Spiro and M. Kandiah
Extraction of ginger root: kinetic studies with acetone 589

C. Quéguiner, E. Dumay, C. Cavalier and J. C. Cheftel
Reduction of *Streptococcus thermophilus* in a whey protein isolate by low moisture extrusion cooking without loss of functional properties 601

D. S. Robinson, M. R. Bretherick and Judith K. Donnelly
The heat stability and isoenzyme composition of peroxidases in Ohane grapes 613

Pamela V. Ramsohoye and I. A. Kozlov
An investigation of enzyme activities found in thaumatin preparations 619

P. G. Demertzis, K. A. Riganakos and M. G. Kontominas
Water sorption isotherms of crystalline raffinose by inverse gas chromatography 629

A. Gevaudan, G. Chuzel, S. Didier and J. Andrieu
Physical properties of cassava mash 637

K. O. Okpala and M. N. Nwoke
The palm oil bleaching capacity of various Nigerian clay deposits 647

L. N. Srikar, H. S. Seshadari and A. A. Fazal
Changes in lipids and proteins of marine catfish (*Tachysurus dussumieri*) during frozen storage 653

Technical notes

L. N. Srikar and R. Mishra
A comparison of methods for shucking clams 659

R. G. Singh and Nirankar Nath
Pretreatments of soybeans for potato-based protein-rich food supplements 665

S. M. Gaonkar and P. R. Kulkarni
Utilization of sugar-cane residues in foods 669

Book reviews 673

Author index 685

Subject index 689

Book review index 697
